4. First aid measures

4.1 Description of First Aid measures

General information	Consult a physician. Show this safety data sheet to the doctor in attendance.
After inhalation	If breathed in, move the concerned person into fresh air. In case of apnoea, give artificial respiration. Consult a physician.
After skin contact	Wash off with plenty of water. Consult a physician.
After eye contact	Rinse the opened eye for several minutes with running water, if necessary remove contact lenses. Consult an ophthalmologist.
After swallowing	Never give anything by mouth to an unconscious person. Rinse mouth with water, drink sufficient amount of water, consult a physician.

5. Fire fighting measures

5.1 Extinguishing media

CO_2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

5.2 Special Hazards arising from the substance or mixture

The product itself is not inflammable; extinguishing measures should therefore be prepared for an environmental fire. In case of fire toxic vapors, e.g. nitric oxide, can be released.

5.3 Advice for fire fighters

Wear breath protective mask and protective clothes if necessary during fire fighting.

6. Accidental release measure	
Person-related safety precautions	Use personal protective equipment. Avoid breathing vapor/mist/gas. Care for appropriate ventilation.
Measures for environmental protection	Prevent seepage into sewage system, workpits and cellars. Do not allow to enter sewers/ surface or ground water.
Measures for cleaning/collecting	Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13.
Observe laboratory safety regulations. Avoid contact with skin and eyes. Do not swallow. Do not pipette by mouth. Do not eat, drink, smoke or apply makeup in areas where specimens or kit reagents are handled. When spilled, absorb with an inert material and put the spilled material in an appropriate waste disposal.
